AARGAU
SWISS LEADER
IN HIGHTECH, ENERGY
AND SCIENCE

The Canton of Aargau – a location that moves companies forward

The canton of Aargau is a technology hub. It offers an overall package that is unbeatable. The renowned rating agency Standard & Poor's as well as the CS and UBS rankings award Aargau full marks as a place to do business.

Concentration of high-tech expertise

Aargau has highly qualified experts for the energy technology, electronics, life sciences, medical technology, plastics, ICT and engineering industries. The employees in Aargau are known for their thorough professional training, international experience, high motivation and loyalty. All of this combines to generate high productivity.

Perfectly connected in the heart of Europe

Aargau is located in the strongest economic region in Switzerland between Zurich, Basel, Berne and Lucerne. You benefit from short distances to partners and customers.

Cost advantages

You benefit from an attractive tax environment, low real estate and property prices as well as moderate payroll costs.

High quality of life

People who like the great outdoors and cultural highlights will feel right at home in Aargau. You will find innumerable leisure activities and many local recreational areas for the whole family.

Contact us.

We are happy to assist you!

Successful start-ups

Inventsys (Switzerland) AG

Innovative solutions for public infrastructure

«We selected the canton of Aargau as the ideal location in Europe because we can find experienced IT staff and partners with whom we can cooperate here. Aargau Services introduced us to potential customers as well as to contacts at the University of Applied Sciences Northwestern Switzerland and the Hightech Zentrum Aargau. This enabled us to launch our pilot project and enhance the product. Our questions about the overall legal and economic framework in Switzerland were answered in simple, uncomplicated terms.»

Martin Morawetz, CEO, www.inventsys.ch

InterAx Biotech AG

Pharmaceutical research at the highest level

«When we were establishing the company, Aargau Services gave us valuable advice on administrative matters and also opened some doors for us. Our company, a spin-off from the Paul Scherrer Institute (PSI) and ETH Zurich, is headquartered in the Park innovaare. Thanks to its proximity to PSI plus its network and support, Park innovaare brings us into contact with interesting partners and potential customers. At our location in Aargau we can develop exactly along the lines we want to take.»

Dr. Martin Ostermaier, CEO, www.interaxbiotech.com

BOXS AG

Inventor and manufacturer of a highly flexible modular space system for temporary use

«Aargau Services supported us with attractive platforms for presenting our idea, exchanging know-how with other companies, and expanding our network. The economic promotion organization enabled us to participate in the GENILEM coaching program of the canton of Aargau and successfully introduced us to investors.»

Raphael Markstaller, CEO, www.bxs.swiss
